1 INTRODUCTION

1.1 Purpose of Financial Regulations

- 1.1.1 The purpose of Financial Regulations is to provide a framework of control, responsibility and accountability for the proper administration of the council's financial affairs, to enable Members and officers to carry out their statutory duties. To conduct its business efficiently, a local authority needs to ensure that it has sound financial management policies in place and that they are strictly adhered to. Part of this process is the establishment of Financial Regulations that set out the financial policies of the authority. A modern council should also be committed to innovation, within the regulatory framework, providing that the necessary risk assessment and approval safeguards are in place.
- 1.1.2 Sound financial management and control is the responsibility of all Members and officers and must be embedded in the culture of the authority. This requires effective training and support to enable Members and officers to achieve necessary financial management standards.

1.2 Reviewing and Updating Financial Regulations

- 1.2.1 Financial Regulations need to be kept under review to ensure compliance with current legislation and keep pace with best practice developments. In particular, governance and performance frameworks are regularly updated and must be reflected in Financial Regulations. Changes to the Constitution of the council may also need to be reflected in Financial Regulations.
- 1.2.2 The Chief Finance Officer is responsible for maintaining a continuous review of Financial Regulations to ensure consistency with best practice and legislation and may make changes as appropriate.
- 1.2.3 The external auditor reviews the council's governance for evidence that this is effective, including Annual Governance Statements, Financial Regulations, schemes of delegation, policies, procedures and manuals. The external auditor will be focusing on the impact of financial arrangements and the importance of having sound and strategic financial management to ensure that resources are available to support the council's priorities and improve services. The council's auditor also gives an opinion on arrangements for securing value for money in their Annual Report.

1.3 Format of the Financial Regulations

- 1.3.1 These regulations are in the format recommended by the Chartered Institute of Public Finance & Accountancy (CIPFA), and the Standard Financial Procedures set out in the appendices state why each procedure is important and include the responsibilities of the Chief Finance Officer and other officers.
- 1.3.2 The Financial Regulations provide clarity about the financial accountabilities of individuals including:
- the Council
 - the Cabinet
 - Cabinet Member Meetings

- Committees and Sub-Committees
- individual Members and the Leader;
- the Chief Executive;
- the Monitoring Officer;
- the Chief Finance Officer; and
- Chief Officers

1.4 Status of Financial Regulations

- 1.4.1 These Regulations form part of the council's Constitution. Beyond the scope of Financial Regulations, there are links with other internal regulatory documents within the Constitution, such as contract standing orders, schemes of delegation and codes of conduct for officers and Members.
- 1.4.2 Financial Regulations are deemed to be part of the council's Procedure Rules in so far as they relate to the conduct of business in meetings of the Council, Cabinet, Cabinet Member meetings, Committees, Sub-Committees and Scrutiny Committee/ Panels.
- 1.4.3 These Financial Regulations are subject to the Accounts and Audit Regulations 2015. The Accounts and Audit Regulations establish statutory provisions for accounting arrangements, audit arrangements and financial control within the council.
- 1.4.4 Financial Regulations endorse the Chartered Institute of Public Finance and Accountancy's "The Role of the Chief Financial Officer in Local Government" (updated 2023).
- 1.4.5 Both private and public sector enterprises need control frameworks to ensure their business objectives are met. Councils, however, by virtue of their major role as custodians and spenders of public money, must be seen to be carrying out these duties to the highest levels of integrity, probity, fairness and economy. Financial Regulations are an essential tool to ensuring compliance with both this duty of care and the financial objectives of the council, and set the appropriate standards of financial management and control expected by Council Tax payers and local business rate payers. These Regulations must be followed by all officers to enable the council's external auditor to give assurance to these parties that the council can demonstrate compliance with the high levels of stewardship expected.

1.5 Application of Financial Regulations

- 1.5.1 Financial Regulations apply to every Member and officer of the council and anyone acting on behalf of the council. Failure by an officer of the council to comply with these Financial Regulations may result in formal disciplinary action being taken against the officer concerned.
- 1.5.2 It is the responsibility of Chief Officers to ensure that all financial processes and controls operated by their service comply with these regulations and to liaise with the Chief Finance Officer on the adequacies of those controls. All Members and staff have a general responsibility for taking reasonable action to provide for the security of the assets under their control, and for ensuring

that the use of these resources is legal, is properly authorised and provides good value for money.

- 1.5.3 Financial Regulations have an important role in establishing a sound system of corporate governance for the council and also in supporting the Council's Counter Fraud Strategy. Chief Officers have individual and collective responsibility to ensure that the fundamental principles as established by the Cadbury and Nolan Reports on "the financial aspects of corporate governance", namely openness, integrity, and accountability, are established through compliance with Financial Regulations.
- 1.5.4 Where local management schemes (LMS) have been approved, for example in schools, these shall have effect subject to the overall authority of these Financial Regulations and the council's Standing Orders. The Director of Finance may approve changes to any more-detailed financial regulations within approved local management schemes, again subject to their compliance with these Financial Regulations.
- 1.5.5 The Chief Finance Officer is also responsible for reporting, where appropriate, breaches of the Financial Regulations to Members. Chief Officers are responsible for ensuring that all staff in their services are aware of the existence and content of these Regulations and other internal regulatory documents and that they comply with them. They must also ensure that staff know where to access the Regulations or provide access to a paper copy if relevant staff do not have intranet access.

1.6 Standard Financial Procedures

- 1.6.1 The Chief Finance Officer is responsible for issuing advice and guidance to underpin the Financial Regulations that Members, officers and others acting on behalf of the council are required to follow. Details of how the Regulations will be implemented operationally, are contained in the appendices to the Financial Regulations and are referred to as "Standard Financial Procedures". These establish sound practices and assist Chief Officers in their responsibility for the operation of their financial processes. These Standard Financial Procedures have the same authority as Financial Regulations.
- 1.6.2 The Chief Finance Officer may vary Standard Financial Procedures after consultation with the Chief Executive and Chief Officers in accordance with the needs of individual services. Provided the Chief Finance Officer is satisfied that all necessary controls are met, they may agree to variations proposed by Chief Officers. Agreed variations must be properly recorded, in a form agreed by the Chief Finance Officer.

1.7 Definitions

- 1.7.1 Financial Regulations incorporate Financial Standing Orders and Standard Financial Procedures.
- 1.7.2 In Financial Regulations the following terms/roles have the following meanings:
