Donna Chisholm,
AD Culture, Tourism and Sport
Brighton and Hove City Council
Hove Town Hall
Norton Road

Dear Donna,

Levelling Up fund – Kingsway to the Sea project

I am delighted to hear that the City Council is proposing to bid for funds to improve the public realm and sports facilities in the area from King Alfred to the Lagoon in West Hove.

This area has suffered from neglect and underinvestment for many years and has become an eyesore in parts.

This area is a major resource for our local communities and has major potential, which we realise are beyond City Council resources to fund.

We believe the bid proposed by the City Council under the Levelling Up fund has the potential to transform the seafront of West Hove for local people and visitors, breathing new life into what is a fantastic location for investment in outdoor sports, events and leisure pursuits.

Hove Civic Society therefore strongly supports your efforts to attract funds to this important part of our city and wish you all success.

With kind regards

Helmut Lusser
Chairman

Hove Civic Society: Helping to improve and protect the townscape and environment of Hove and Portslade Trustees 2021:
