

Traffic Count Survey

SCHOOL NAME

Park safe, Walk safe Campaign

We want you to count the number of cars driving and parking in the street outside your school and to use this sheet to record what they are doing. Cars going in one direct (left to right) should be tallied in the first column, cars going right to left are to be counted in the 2nd column, and cars that stop in the street on or near the yellow zig zag lines are to be counted in the third column. Each car should only be counted once.

You need at least 2 pupils to carry out this job.

Date:	Time started:	Time finished:
--------------	----------------------	-----------------------

Tally boxes - make one mark per car

	Cars travelling left to right 	Car travelling Right to left 	Cars stopping or parking on or near the yellow zig zag lines
