

# Landfill Tax Credit Scheme Funding Guide

The Landfill Tax Credit Scheme (LTCS) aims to lessen the effects of landfill activities upon local communities by funding new community and environmental improvement projects. 'Distributive Environmental Bodies' (D-EBs) allocate the funding, mainly to projects within a ten mile radius of an eligible landfill site, that meet the following LTCS priorities or Objects:

<b>Object</b>	<b>Brief Description - Full details are available at: <a href="http://www.ltcs.org.uk/objects/objects.asp">www.ltcs.org.uk/objects/objects.asp</a></b>
<b>A</b>	Projects that involve reclamation of land
<b>B</b>	Projects that reduce or prevent pollution on land
<b>D</b>	Projects that provide or maintain public amenities or parks
<b>DA</b>	Projects that conserve biodiversity and UK species habitats
<b>E</b>	Projects that restore or repair buildings for religious worship, or of architectural or historical interest

The following table lists the main Brighton & Hove D-EBs and indicate their main funding priorities. Some areas of eastern Brighton may not be eligible for funding, as they are not close enough to an eligible landfill site. For D-EBs contact details and full guidance on how to apply for funding visit [www.ltcs.org.uk](http://www.ltcs.org.uk) and [www.entrust.org.uk](http://www.entrust.org.uk)
